Subject AOC Chino

Mark, I hope maybe you can explain to me what your and EPA's responsibilities are in terms of the AOC agreement for Chino as you understand it. I am rounding up documents from the AOC files to get a clearer picture. do you think the process is funtioning well?

Also I want to know if there is a Superfund process for review? I am wondering if you are aware of any sort of mandated or prescribed review process that we might apply to the Chino AOC?

Thanks, Sally Smith, GRIP
